# LifeZig

Enjoy your cherished memories and favorite music

LifeZig: Your Life on TV !™

- LifeZig is a pleasant activity for friends and family with memory loss or dementia

- Using LifeZig is easy – it's as simple as watching TV

- Quickly create personalized video channels with music

- More time to enjoy your family memories

- Backup your pictures to CD

- LifeZig enables a more convenient, easy, and reliable way of taking care of your digital photos, while saving you time and effort

- LifeZig is Personalized Reminiscence Video: Your Life on TV™!

Reminiscence Therapy with Personalized Video

LifeZig

1 Digital Camera

2 Easy Connection

3 TV displaying your personalized video

4 *LifeZig Remote Control*

Family Photos

Music

LifeZig is a very easy and convenient way to reminisce, share, and enjoy your family photos and music

How it works:

1 Take pictures of your family photos with a Digital Camera (or use optional scanner)

2 Connect the camera (or optional scanner) to LifeZig

3 View and create personalized video from your photos right on your TV screen

4 Pause, skip, and return to pictures using the Photozig Remote Control – a great feature for memorable pictures and events!

5 Watch the personalized video channels with your family & friends and enjoy your lifetime memories

Benefits:

• Reminiscence Therapy

• Personalized video channels

• A pleasant activity for your and your family

• Protect your priceless memories

• Enjoy browsing through your lifetime events

• Quick, easy, and fun to use!

LifeZig does automatically for you:

• Transfers your digital photos and frees space in your digital camera

• Builds personalized video channels (slideshows with music)

• Keeps track of all your pictures

• Imports music from your CDs to use as a soundtrack
